Note: Transfers are bought on the first bus and priced according to the fare system of that bus. (Northern: \$0.75 Southern: \$0.70). On the next bus, overrides pay for all remaining zones after the transfer is used to pay for the first zone. So if you were transferring to ride 3 zones intrastate on a North Jersey route, you would hand in your transfer ticket and then pay the override fare for the remaining zones (\$1.55) in cash.

Note: Transfers are only available between two intrastate rides.

Note: These override fares are calculated by subtracting \$1.60 (or \$0.75 for reduced fare) from what the zones traveled (including the transfer zone) would have cost if purchased as its own trip. This is so multi-leg bus trips cost the same regardless of direction.
